

OSA 5044-63

19 September 1963

MEMORANDUM FOR: Deputy Director (Science and Technology)

SUBJECT: One Hundred Universities Program

25X1A

1. In line with your remarks about recruitment of mid-career and senior types for the DD/S&T this morning, I was reminded of the fact that in early November I am to participate in the combined Office of Training--Office of Personnel visitation to one hundred universities in the country to project to principally the faculty members an "image" of this Agency, which will assist them in their identification of candidates for employment here. To the best of my recollection my schools are [redacted] 25X1A

25X1A

[redacted] Some twenty-four other so-called senior Agency officials will be tackling other schools around the country. I suspect that within DD/S&T there are others like myself who will be engaging in this exercise.

2. My specific inquiry is directed to any proselyting you may feel appropriate in the scientific faculties of the schools I shall be visiting. I would be particularly interested in knowing whether you are on intimate terms with any of the scientists in the several disciplines within these schools. Such points of departure might be extrapolated if there are any key people who you feel might be attracted to DD/S&T. I suggest also you might wish to check with [redacted] to see if this exercise might not be applicable to others in OSI, etc., who may be making a trip similar to mine.
